***Extérieur » Harmonie. Une présence parfaite assurée par la primeur du côté extérieur.***

#### PT

Cores de excelência combinam texturas que se aproximam da tonalidade natural da madeira, totalmente aplicáveis no exterior. A gama apresenta uma resistência às adversidades climáticas conferida pela película PVC (RENOLIT) obtendo total protecção aos raios UV, humidade e variações de temperatura.

#### EN

Stunning, wood-grain, textured finishes are available in this line. This PVC film (RENOLIT) provides an extremely high resistance to UV, allowing for reduction of expansion and contraction in extreme temperature variations as well as the maintaining of its true vibrant finish.

#### FR

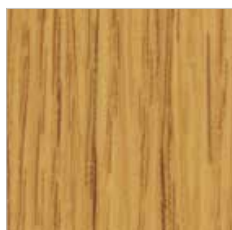

Teintes d'excellence avec textures variées pour approcher les tons naturels du bois, totalement applicable en extérieur. La gamme présente une résistance aux adversités climatiques offerte par le film de PVC (RENOLIT), obtenant une protection totale aux rayons UV, à l'humidité et aux variations de température.

***Normal » Tranquillité. Tonalités exemplaires à portée du raffinement habituel.***

#### PT

Para uma aplicação mais corrente a SAGIPER disponibiliza um revestimento de quatro tonalidades que adquirem a sua cor através da própria matéria prima.

#### EN

For more functional, cost-prohibitive applications where practicality is priority, SAGIPER offers four colors that are derived naturally from the mixture of the PVC core itself.

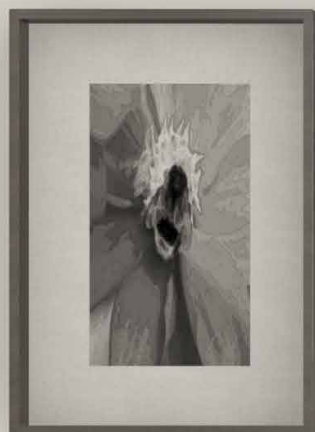

#### FR

Pour une application plus courante, SAGIPER fournit un revêtement de quatre teintes différentes obtenues directement par les matières premières.

#### 01 REVESTIMENTOS DE PAREDE

A sua colocação pode fazer-se directamente na parede com a ajuda da nossa ripa em PVC.

EN

#### 01 WALL PANELING

This wall application can be done directly over our PVC strapping, once pre-fastened to the desired substrate.

FR

#### 01 REVÊTEMENTS MURAUX

Leur application peut être faite directement sur le mur à l'aide de nos tasseaux PVC.

#### 02 TECTO FALSO SEM ESTRUTURA

A sua colocação pode fazer-se directamente ao tecto já existente, com a ajuda da nossa ripa em PVC.

#### 02 CEILING

This ceiling application can be done directly over our PVC strapping, once pre-fastened to the desired substrate.

#### 02 REVÊTEMENTS MURAUX

Leur application peut être faite directement à la toiture existante, à l'aide de nos tasseaux PVC.

#### 03 TECTO FALSO COM ESTRUTURA

Será necessária uma estrutura metálica, pelo que o tecto terá de levar um rebaixamento.

#### 03 T-BAR CEILING

This ceiling application can be done directly over a t-bar suspension grid system.

#### 03 FAUX PLAFOND AVEC STRUCTURE

Une structure métallique sera nécessaire, de manière à abaisser la hauteur du plafond.
